

Instructions for Retrieving your National Board Exam Results
(effective July 1, 2014)

- National Board Exam candidates will receive their pass/fail status upon verification of graduation from an ABFSE accredited program. Verification must be received directly from your school to The Conference office.
- The Conference will send an email confirmation once your graduation date has been confirmed.
- Your exam results will be posted to your online Pearson VUE account within approximately two business days after receiving the email. Simultaneously, your results will be released to the state licensing board(s) selected on your application via postal mail.
- Your online account is created at www.pearsonvue.com/theconference. This is the same account where you schedule your exam online. If you scheduled over the phone, you will still need to create an account to view your results.
- Results will state your pass/fail status, along with a performance feedback chart for unsuccessful candidates.
- If you have retaken an exam and already have a confirmed graduation date, the average processing time between sitting for the exam and viewing your results is five business days.
- **Exam results cannot be given out over the telephone or email to anyone.**

Once your results are posted. Here's where you can find them:

- A new link will be available in your online account once your results are available.
- Click the "View Score Reports" link in the right-hand column – second from the bottom. After clicking "View Score Reports" you will see your NBE Arts and/or NBE Sciences exam listed. Click the blue "View" box to access your unofficial score report.
